<p>When I was growing up, my dad had the best job I could possibly imagine: he was an arcade game ¤, and pinball technician.</p>

<p>For me, that meant summer trips through Poland s coastal cities with their seasonal arcade parlors; peeking inside cabinets ¤, to learn programming and engineering secrets; and of course free games!</p>

<p>One of my favorites was PAC-MAN, whose popularity transcended the geopolitical barriers ¤, of that time. During the heyday of space shooters, T¯ru Iwatani s creation stood out as one of the first video ¤, games aimed at a broader audience, with a cute story of pizza-shaped character gobbling dots in a maze, colorful (literally!) ¤, characters, friendly design, very little violence and everlasting fun.</p>

<p>Today, on PAC-MAN s 30th birthday, you can rediscover some of your 8-bit ¤, memories or meet PAC-MAN for the first time through our first-ever playable Google doodle. To play the game, go to google during ¤, the next 48 hours (be) Tj T* B

¤, button or just wait for a few seconds.</p>

<p>Google doodler Ryan Germick and I made sure to include PAC-MAN s original game ¤, logic, graphics and sounds, bring back ghosts individual personalities, and even recreate original bugs from this 1980 s masterpiece. We also ¤, added a little easter egg: if you throw in another coin, Ms. PAC-MAN joins the party and you can play ¤, together with someone else (PAC-MAN is controlled with) Tj T*

/p>

<p>PAC-MAN seems like a natural fit for the Google homepage. They re both deceptively straightforward, carefully hiding their complexity under ¤, the hood. There s a light-hearted, human touch to both of them. And we can only hope you find using Google ¤, at least a quarter as enjoyable as eating dots and chasing ghosts. You know, without actually needing any quarters.</p>
