The contestants win monetary values by dropping a chip from the top of a large board that has nine possible rows. The chip can drop into one of the nine rows. The rows are numbered 1 through 9. The chip starts at the top of the board and falls into one of the rows. The chip can be caught by a player who is standing behind the board. The player who catches the chip wins the prize. The prize is a cash amount that is determined by the row that the chip falls into. The prize amounts are: Row 1: \$100,000; Row 2: \$50,000; Row 3: \$25,000; Row 4: \$10,000; Row 5: \$5,000; Row 6: \$2,500; Row 7: \$1,000; Row 8: \$500; Row 9: \$250.
