

# poker web online

[View All Poker Terms](#). W\$SD stands for [Won Money at Showdown](#), and is a statistic used in online poker database software like PokerTracker and Hold'em Manager. W\$SD is the percentage of the time you win the pot, out of all of the times you stay in a hand all the way through to a showdown.

[What is W\\$SD in Poker?](#)

wingpoker : glossary : [wsd](#)

[WT \(WTSD - Went to Showdown\)](#) measures how often a player who has seen the flop goes to showdown. Note: All data is based on specific table & tournament session data except Rush & Cash. The session of Rush & Cash is combined across all tables.
