<p>How To Play American Roulette</p>

<p>The first thing to do before playing the game is to set</p>

<p>your bet. After that, 🍇 there are subtle differences between

this version and the</p>

<p>European for anybody who may be more familiar with the European Ӿ

15; rules.</p>

<p>One of the main</p>

<p>differences is that there is double zero in American Roulette whereas

the European</p>

<p>version excludes the 🍇 use of double zero. Select a chip from

one to 500 to the right of</p>

<p>the screen and the minimum 🍇 wager for one bet position is th

ree, and the maximum is 500.</p>

<p>The next step is to position or place 🍇 your bet. The number

of potential credits won</p>

<p>depends entirely on where the bet is placed as it is defined 🍇

as a ratio to the bet.</p>

<p>You</p>

<p>will also notice there are two buttons in the centre of the screen suc

h 🍇 as Clear and</p>

<p>Spin . The Clear buttons enable you to clear any bets that you may

no longer wish to</p>

<p>🍇 have on the table whereas the Spin button sets the balls

rolling. The Spin button</p>

<p>then transforms into the Repeat 🍇 button, which can be used

to place the chips in the</p>

<p>same place as before.</p>

<p>It is worth brushing up on 🍇 some keywords and terminology to

help</p>

<p>you along. Straight refers to betting on a single numbered square ex

plicitly chosen</p>

<p>by 🍇 the player. The straight bet pays a ratio of 35:1 and th

e bet can be placed on as</p>

<p>many numbers 🍇 as you wish. Split means a single bet on two

numbers adjacent to one</p>

<p>another and Three-Line is a bet 🍇 on three numbers. The thr

ee-line bet pays 11:1 and</p>

<p>chips must be placed on the bottom edge of the vertical 🍇 col

umn.</p>

<p>The Rise Of American</p>

<p>Roulette</p>

<p>The NetEnt version of American Roulette is rapidly rising in popularity

and</p>

<p>does the classical version 🍇 justice with its modern graphic

design and a smooth</p>

<p>soundtrack to complement the game s stylistic approach. It is now star
