<p&gt;How Does PokerStars Deal With Bots?&lt;/p&gt;
<p&gt;April 20, 2024 Matthew Pitt Senior Editor&lt;/p&gt;
<p&gt;PokerStars&lt;/p&gt;
<p&gt; recently gave an insight into its game integrity &#128170; team and r
ecently launched another</p&gt;
<p&gt; video showing how the world s number one online poker site deals with
bots and other</p&gt;
<p&gt; &#128170; artificial intelligence (AI).&lt;/p&gt;
<p&gt;Bots and Al have been around almost as long as online&lt;/p&gt;
<p&gt; poker. Unscrupulous people will always try to &#128170; take shortcut
s wherever there is money to</p&gt;
<p&gt; be made. Bots and Al are a common way to do this.&lt;/p&gt;
<p&gt;What Is &#128170; a Bot?&lt;/p&gt;
<p&gt;A bot is essentially a&lt;/p&gt;
<p&gt; piece of software that automatically plays online poker. The software
analyses what s</p&gt;
<p&gt; happened at &#128170; the table, then makes an automatic decision of
what action to take.</p&gt;
<p&gt; Usually, this is the most mathematically correct decision.&lt;/p&gt;
<p&gt;Bots &#128170; have grown more&lt;/p&gt;
<p&gt; advanced over the years. Some can even share information if there is m
ore than one of</p&gt;
<p&gt; them &#128170; at the same table, giving them a massive advantage ove
r a player playing</p&gt;
<p&gt; fair.&lt;/p&gt;
<p&gt;Another type of Al does all the &#128170; same analysis before directi
ng its user to make</p&gt;
<p&gt; the correct decision, doing so in real time. Both types are banned &#1
28170; from all online</p&gt;
<p&gt; poker sites and PokerStars takes the use of any banned software extrem
ely</p&qt;
<p&gt; seriously.&lt;/p&gt;
<p&gt;How Does PokerStars Combat Bots?&lt;/p&gt;
<p&qt;Just &#128170; like its Game Integrity team,&lt;/p&gt;
<p&gt; PokerStars has a dedicated team whose sole job is to combat bots and A
I. It 💪 is made up</p&gt;
<p&gt; of data scientists, programmers and former professional poker players
who actively seek</p&gt;
<p&gt; out and punish illegal software &#128170; users.&lt;/p&gt;
<p&gt;PokerStars keeps its detection methods secret as&lt;/p&gt;
<p&gt; not to give the software creators hints on how to avoid detection, but
💪 does reveal it</p&qt;
<p&gt; uses a combination of hardware and software to track down Al users. Th
e site believes</p&gt;
<p&gt; it has &#128170; the best bot detection in the industry.&lt;/p&gt;
```

<p>The team look for patterns and anomalies</p> <p> across billions of hands. A rigorous investigation 💪 takes pl

<p> is uncovered. The cheater s funds are frozen and redistributed to thos

ace whenever a suspected bot</p>
